## Infectious Disease Preparedness and Response Plan

Fortunately the nature of business conducted within 63 and 65 East Market Street in Corning, New York renders the risk **low** for exposure to SARS-CoV-2 / COVID-19. According to the Occupational Safety and Health Administration (OSHA), “Lower exposure risk / caution jobs are those that do not require contact with people known to be, or suspected of being, infected with SARS-CoV-2 nor frequent close contact with (i.e., within six feet of) the general public. Workers in this category have minimal occupational contact with the public and other co-workers.”

We intend to continue our robust regimen of basic infection prevention throughout the buildings, which facilitate good hygiene and infection control practices among our tenants and customers.

- Please stay at home if you are not feeling well. We encourage you to monitor yourself for signs and symptoms of COVID-19 if you suspect possible exposure.
- Please maintain at least six feet of separation from other people. During pre-scheduled “assemblies,” please remain within your designated space.
- Please limit the number of persons inside each section of the buildings:
  - Maximum of 12 persons at 63 E Market Street
  - Maximum of 12 persons at 65 E Market Street
  - Maximum of 20 persons on the second floor of 65 E Market Street
- Please practice considerate respiratory etiquette, by limiting the spread of respiratory secretions:
  - Cover coughs and sneezes.
  - Wear a face mask that restricts respiratory secretions at the source (i.e., nose and mouth).
  - Encourage your customers / clients to wear face masks as well.
- Please remember to frequently and thoroughly wash your hands with appropriate cleansers.
  - Upon entering or exiting our buildings, please wash your hands with cleanser placed near the door.
  - Every 30 minutes inside the building, please wash your hands with soap, water and paper towels.
- In warm weather, please open the windows to increase fresh air ventilation throughout the buildings. Please remember to close the windows upon departure for the day.

For the very latest guidelines, please consult the Centers for Disease Control and Prevention: <https://www.cdc.gov/>

Contact Cheryl Boychuck (570-205-4020) or Bill Boychuck (570-205-0391) at any time with questions or concerns.
